Arts Coming Together to Nurture Our World

Dear Community of Huntington,

Our Destination Imagination Team is competing in a challenge called, "Project Outreach", where we have to choose and address a need within our community. We have selected the area of fine arts and culture.

We are creating a club called, "ACT NOW", to enhance fine arts and encourage growth of fine art within our school and community.

We hope to reach out not only to those who already appreciate the benefits that "the Arts" offer, but to those who may not have that luxury.

Our team is asking that you take a few minutes to answer the questions in our [survey](#), so that we may better address this need and know your individual opinions!

We appreciate your time and effort!
